

Cucumber Green Fingers (Restricted Vine Type)

Outdoor or tunnel type producing an early and high yield of uniform fruits 10-12 cm long. The medium green fruits with attractive smooth skins have a firm crisp texture and exceptionally good taste and flavour. The fruits should be picked regularly when young to ensure best taste and flavour is ensured. Green Fingers is an early maturing variety that sets well, with high fruit quality, even when grown under cooler conditions.

Tasty Cucumbers produced
on COMPACT bushy
plants which makes it ideal for
large pots , containers
baskets or small garden areas
